## Summary

Full Stack web developer with a certificate from Chapel Hill's Coding Bootcamp and a bachelor's degree in Communication. Strengths lie in collaborative teamwork, communication, organization of ideas, tasks and clean design.

## Technical Skills

**Languages:** CSS, HTML, JavaScript, React

**Databases:** MySQL, MongoDB

**Tools:** Git and Heroku

## Projects

### PTC Binder

<https://github.com/McTastic/PTC-Binder> | <https://ptc-binder.herokuapp.com/>

- Summary: This project allows the user to search for Pokemon cards and obtain their relevant data through the TCG API and store cards in a "binder" linked to their account.
- Role: Front-end development
- Tools: CSS, HTML, JavaScript, Bootstrap, MySQL

## Experience

November 2014 - October 2021

### Tryon Distributing - On-Premise Sales Representative, Raleigh NC

- Showcased the Tryon wine and craft beer portfolio for over 250 on-premise accounts in Durham, Raleigh and the southern suburbs.
- Advanced my territory through communication, education and relationships and left the company with 20% growth year-to-date in my territory.
- Consulted Encompass software to manage month-to-date & year-to-date quotas, track customer growth and anticipate the needs of the company and customers.

September 2012 - November 2014

### Beasley's Chicken & Honey - Host, Server, Bartender, Raleigh NC

- Grew my role from host to server and eventually bartender.
- Demonstrated hospitality and communication skills to care for guests during the entirety of their dining experience.

- Entrusted with other in-house needs such as staff training, writing menu changes on the chalk wall and completing the liquor order from the ABC Board for all Ashley Christensen Restaurants.

## Education

**UNC - Chapel Hill Full Stack Flex Development Coding Bootcamp** 2022

***Certificate in Full Stack Web Development from UNC-Chapel Hill***

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS, JavaScript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js and ReactJS. Worked with small teams to build and deploy multiple full stack applications relying on data from web API's and gained knowledge of other computer science basics like command line execution of tasks, Github repository management and manipulation and Model View Controller design pattern.

**Appalachian State University, Boone NC - BS Communications/Journalism** 2011
