Summary

Full Stack web developer skilled in HTML, CSS, JavaScript and more. I have completed the Full Stack Flex program certification via the UNC Chapel Hill's Coding Bootcamp and am looking for an opportunity to work as a front end web developer among a strong and diverse team. In addition to the coursework, I learned that my strengths lie in collaborative teamwork, organization of ideas and tasks and clean design.

Experience

July 2021 - January 2022

UNC – Chapel Hill Full Stack Flex Development Coding Bootcamp

- Learned the best practices and foundations of HTML, CSS, Javascript, jQuery, Node.js, Express, mySQL & React.
- Worked with small teams to build and deploy a full stack application relying on data from web API's.
- Gained knowledge of other computer science basics like command line execution of tasks, Github repository management & manipulation and Model View Controller design pattern.

November 2014 - October 2021

Tryon Distributing – On–Premise Sales Representative

- Represented the Tryon wine and craft beer portfolio for over 250 on-premise accounts in Durham, Raleigh and the southern suburbs.
- Grew my territory through communication, education and relationships and left the company with 20% growth year-to-date in my territory.
- Utilized Encompass software to manage month-to-date & year-to-date quotas, track customer growth and anticipate the needs of the company and customers.

September 2012 - November 2014

Beasley's Chicken & Honey - Server, Bartender

Education

2005 - 2011

Appalachian State University, Boone NC - BS Communications/Journalism
